MCX(M) Straight Connector

Taoglas cable adapters can be customised for every application. You choose the connector, cable type, and the cable length. Cables used are high grade low loss cables and are electrically tested before shipping. Samples are available upon request and are available to ship with Taoglas antennas.

SMA connectors are sub miniature RF connectors with threaded couplings which offer broadband performance from DC to 18 GHz. MCX connectors are micro RF connectors with snap-on couplings which offer broadband performance from DC to 6 GHz.

**Features**

**Cable**

- RG-174 High mesh fully shielded  
Heat shrink sleeves

**Connector**

- Start : SMA Male Straight
- End : MCX Male Straight
