

PCN – Process Change Notification

Change:	AP.25F.41.3050D
Date:	201710/12
Author	Cedric Chang

Affected Products

Model#	Part Number	Changes
AP.25F - 2 Stage 30dB-3050mm RG-174 SMA(F)- SAW Filter	AP.25F.41.3050D	Amend the current value.

Type of Change

- Hardware Modification
 Production Process Advance
 Others – Amend the current value.

Description of Change

- Amend the inspection power consumption current value to meet the real sample inspection value on production line.

Schedule

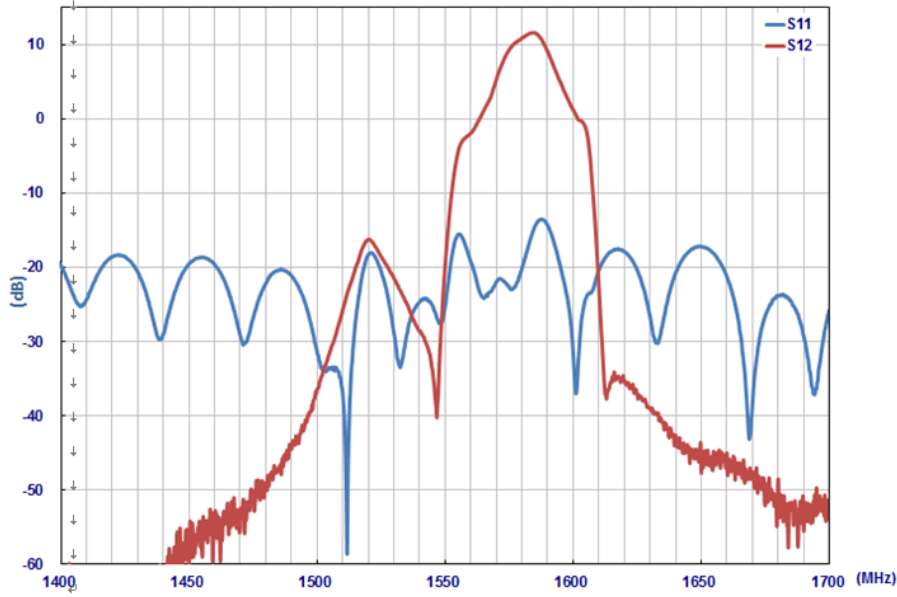

2017, October, Taoglas will use the new specification on sample inspection.

Forecast Estimated Transition Date

October /2017

Illustration of Change

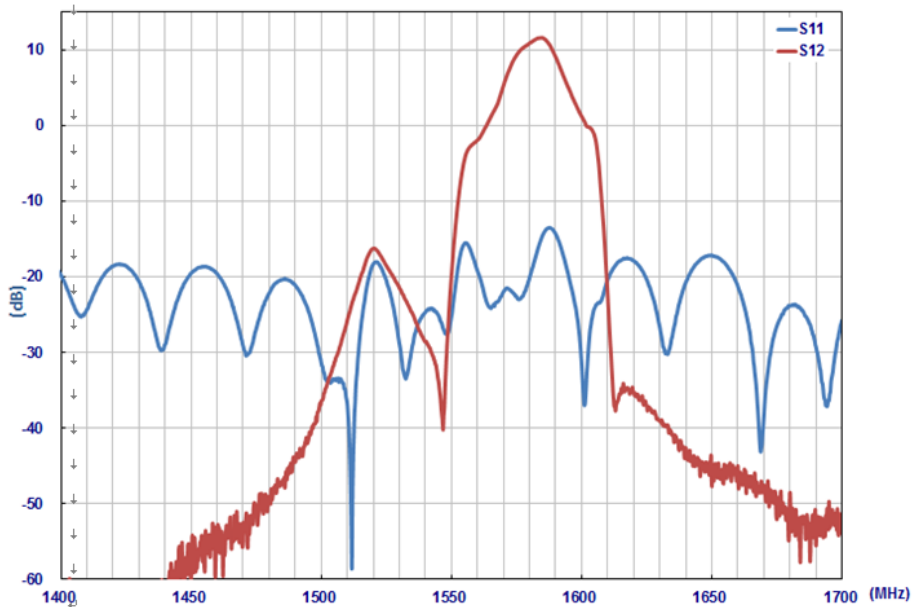

Old Drawing

Testing Frequency: 1575.42 MHz

	S11(dB)	S12(dB)	Power Consumption(mA)
Limit value	$S11 < -10$	$-1 < S12 < 13$	14 ~ 16

New Drawing

Testing Frequency: 1575.42 MHz

	S11(dB)	S12(dB)	Power Consumption(mA)
Limit value	$S11 < -10$	$-1 < S12 < 13$	8 ~ 15
