1. Introduction

The Taoglas AFP.COM is an extra-strength adhesive foam pad designed specifically for Comet Series installations, providing a reliable and compliant mounting solution for demanding applications. Manufactured from Rogers Poron® extra-soft, slow-rebound foam, the AFP.COM delivers excellent surface conformity, vibration damping, and long-term mechanical stability across a wide range of installation environments.

Featuring a dual-adhesive construction optimized for glass-to-plastic mounting, the AFP.COM ensures secure attachment while simplifying installation and reducing the need for additional mechanical fixings. This adhesive foam pad is fully compatible with all standard Taoglas Comet Series products, making it an ideal choice for robust, repeatable, and professional-grade installations.

Main Benefits:

- Designed specifically for Taoglas Comet Series installations for assured compatibility
- 6.35 mm extra-strength adhesive foam provides secure and reliable mounting
- Rogers Poron® extra-soft, slow-rebound foam for excellent surface conformity and vibration damping
- Optimized for glass-to-plastic mounting, simplifying installation
- RoHS & REACH compliant for regulatory peace of mind
